**HEALTH EDUCATION, PUPIL SERVICES, AND PARENTS' OR
STUDENTS' RIGHTS REQUIRING ANNUAL NOTIFICATION**

DEAR PARENT/GUARDIAN: State and federal laws require school districts to notify parents and guardians of minor pupils of parental rights. The law requires the parents or guardians to sign a notification form and return it to school. The signature is an acknowledgment that the parents or guardians have been informed of their rights but does not indicate that consent to participate in any particular program that has been either given or withheld. Some legislation requires additional notification to the parents or guardians during the school term or at least 15 days prior to a specific activity. (A separate letter will be sent to parents or guardians prior to any of these specified activities or classes, and the student will be excused whenever the parents or guardians file with the principal of the school a statement in writing requesting that their child not participate.)

The following rights, responsibilities, and protections are provided (when used in this notification “parent” includes a parent or legal guardian):

VISION AND HEARING AND DENTAL SCREENING (ECS § 49452-49455): During the school year, we may include your child in our program of screening pupils to find any hearing, vision and/or dental impairments. If you submit a written statement refusing such examination, we will exempt your child from the requirement of the law.

FIRST GRADE HEALTH SCREENING (H&S Code Sec. 124105): All students enrolled in first grade must receive a health screening by December of the child’s first grade year. A pupil may be excluded from school or not more than five days if the parent/guardian has not provided a health screening certificate or a waiver by the 90th day after the pupil’s entrance into the first grade.

MEDICAL AND HOSPITAL SERVICES FOR PUPILS (EC § 49471, 49472): Authorizes districts to provide medical or hospital services through non-profit membership corporations or insurance policies for pupil injuries arising out of school- related activities. The Governing Board of the National School District may make available medical or hospital service through individual policies of accident insurance. No student shall be compelled to accept such service without the consent of his/her parent. The cost of the insurance is paid for by the student’s parent or guardian. If a school district does not provide or make available medical and hospital services for pupils of the district injured while participating in athletic activities, in accordance with Section 49470, the parent or guardian of each pupil participating in athletic activities shall be notified that the services are not provided.

ADMINISTRATION OF EPILEPSY MEDICATION SB 161: This bill requires school districts, upon receipt of a request from a parent or guardian, to have nonmedical school employees receive voluntary emergency medical training in order to provide, in the absence of a school nurse or other licensed nurse onsite, emergency medical assistance to students suffering from epilepsy in accordance with state guidelines.

HARASSMENT/BULLY BP5131: Any student who engages in bullying and/or cyberbullying on school premises, or off campus in a manner that causes or is likely to cause a substantial disruption of a school activity or school attendance, shall be subject to discipline. Harassment or bullying of students or staff, includes but is not limited to, cyberbullying, intimidation, hazing or initiation activity, extortion, or any other verbal, written, or physical conduct that causes or threatens to cause violence, bodily harm, or substantial disruption. Cyberbullying includes the transmission of communications, posting of harassing messages, direct threats, or other harmful texts, sounds, or images on the Internet, social networking sites, or other digital technologies using a telephone, computer, or any wireless communication device.

DISRUPTION IN PUBLIC SCHOOL OR PUBLIC SCHOOL MEETING (EC § 32210): Any person who willfully disturbs any public school or public school meeting is guilty of a misdemeanor and shall be punished by a fine of not more than five hundred dollars (\$500).

NOTIFICATION: PARENTS RIGHTS AND RESPONSIBILITIES (EC § 48981, 48982): Pursuant to parent request, the annual notifications may be provided to the parent or guardian in electronic format by providing access to the notice electronically. If the notice is provided in electronic format, the parent or guardian must submit to the school a signed acknowledgement of receipt of this notice.

RULES AND PROCEDURES ON SCHOOL DISCIPLINE (EC § 35291): Rules pertaining to student discipline, including those that govern suspension or expulsion, are outlined in EC§ 48900 et seq. and are available from the building principal. They are also communicated to all students every year. In addition, the following disciplinary information is to be provided to parents:

- A. **Attendance of suspended child’s parent or guardian for portion of school day (EC § 48900.1):** If the school district adopts a policy that teachers may require the parent or guardian of a pupil who has been suspended by a teacher to attend a portion of a school day in the classroom of his child or ward, the school district must notify parents of the policy prior to its implementation.
- B. **Sexual Harassment Policy (EC § 231.5; 5 CCR § 4917):** Each district shall have a written policy on sexual harassment, and shall provide a copy of such policy, as it pertains to students, with the annual notification. Districts are also required to display the policy in a prominent location and include in orientation for employees and students.
- C. **Hate Violence (EC § 48900.3):** A pupil in any of grades 4 to 12, inclusive, may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled

determines that the pupil has caused, attempted to cause, or threatened to cause, or participated in an act of, hate violence, as defined in EC 233(e).

- D. **Harassment, Intimidation or Threats (EC § 4 8900.4):** A pupil enrolled in any of grades 4 to 12, inclusive, may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has intentionally engaged in harassment, threats, or intimidation, directed against school district personnel or pupils, that is sufficiently severe or pervasive to have the actual and reasonably expected effect of materially disrupting classwork, creating substantial disorder, and invading the rights of either school personnel or pupils by creating an intimidating or hostile educational environment.
- E. **Terroristic Threats Against School Officials, School Property or Both (EC § 48900.7):** A pupil may be suspended from school or recommended for expulsion if the superintendent or the principal of the school in which the pupil is enrolled determines that the pupil has made terroristic threats against school officials or school property, or both. A “terroristic threat” includes any statement, whether written or oral, by a person who willfully threatens to commit a crime which will result in death, great bodily injury to another person, or property damage in excess of one thousand dollars (\$1,000), with the specific intent that the statement is to be taken as a threat, even if there is no intent of actually carrying it out, which, on its face and under the circumstances in which it is made, is so unequivocal, unconditional, immediate, and specific as to convey to the person threatened, a gravity of purpose and an immediate prospect of execution of the threat, and thereby causes that person reasonably to be in sustained fear for his or her own safety or for his or her immediate family’s safety, or for the protection of school district property, or the personal property of the person threatened or his or her immediate family.
- F. **Suspension/Expulsion: Alternative and Other Means of Correction (EC § 48900, 48900.5):** A school district may document other means of correction short of suspension and expulsion and place the documentation in the pupil’s record. Other means of correction may include: a conference between school personnel, the pupil’s parent or guardian and the pupil; referrals to the school counselor or psychologist; study teams, guidance teams or other intervention- related teams that assess behavior and develop and implement behavior plans; referral for psycho-educational assessment; and after-school programs that address specific behavioral issues.

SUN PROTECTIVE CLOTHING/USE OF SUNSCREEN (EC § 35183.5): Required school sites to allow for outdoor use of sun-protective clothing. Further provides for the use of sunscreen by students during the school day and authorizes sites to establish policy.

DUTY CONCERNING CONDUCT OF PUPILS (EC § 44807): Every teacher shall hold pupils accountable for their conduct on the way to and from school, and on the playground.

DANGEROUS OBJECTS-PENAL CODE (PC § 417.27): The District prohibits dangerous objects on campus, such as laser pointers and B.B. guns, unless possession is for valid instructional or other school related purpose.

DUTIES OF PUPILS (5 CCR § 300): Requires pupils to confirm to school regulations; obey all directions; be diligent in study and respectful of teachers and others in authority; and refrain from profane and vulgar language.

DRUG FREE CAMPUS (Alcohol and Other Drug Use Prevention Education): Possession, use or sale of narcotics, alcohol or other controlled substances is prohibited and strictly enforced at all school activities. Records will be forwarded to local law enforcement, and district sanctions will result from violations.

TOBACCO-FREE CAMPUS (HSC 104420, 104495) Requires all school districts and county offices of education that receive Tobacco Use Prevention (TUPE) funding to adopt and enforce a tobacco-free campus policy. Information about the policy and enforcement procedures must be communicated clearly to school personnel, parents, pupils and the larger community. Signs stating, “Tobacco use is prohibited” must be prominently displayed at all entrances to school property. Information about smoking cessation support programs must be made available and encouraged for pupils and staff. HSC 104495 further prohibits smoking and use of any tobacco-related products and disposal of any tobacco-related waste within 25 feet of a school playground. The prohibition does not apply to a public sidewalk located within 25 feet of a playground.

SCHOOL ACCOUNTABILITY REPORT CARD (EC § 35256, 35258): Districts must provide parents and guardians with a copy of the school accountability report card upon request and make a concerted effort to notify the parents of the purpose of the school accountability reports cards. Content of the report card is defined by EC § 33126, 33286.

HEALTH, FAMILY LIFE, AND SEX EDUCATION: CONFLICT WITH RELIGIOUS BELIEFS (EC § 51240): Whenever any part of the instruction in health, family life, or sex education conflicts with religious training and beliefs or personal moral convictions of the parent or guardian, the student shall be excused from that part of the instruction upon written parental request.

CALIFORNIA HEALTHY YOUTH ACT (EC § 51938): A parent has the right to excuse their child from all or part of comprehensive sexual health education, HIV prevention education, and assessment related to such education. Parents have the right to inspect and review materials to be used, and to request in writing that their child not participate. Districts must, at the beginning of the school year or at a new enrollment, notify parents about instruction in comprehensive sexual health education and HIV prevention education and research on pupil health behaviors and risks. If a school district elects to provide comprehensive sexual health education or HIV prevention education through outside consultants and/or an assembly, notice must be provided to parents that includes the date of instruction, the name of the organization or affiliation of each guest speaker and information stating that the parent/guardian has the right to request a copy of Education Code Sections 51938, 51933 and 51934. Parents have the right to request a copy of the California Healthy Youth Act Education Code Section 51930

et. seq. The District will provide dates for parent review of materials in the fall and spring of each school year. Parents may review materials at any time by request in writing to the Educational Services Department.

PUPIL SAFETY: HUMAN TRAFFICKING PREVENTION RESOURCES (EC § 49381): Requires the governing board of a school district and the governing body of a charter school to work with their schools that maintain any grades 6 to 12, inclusive, to identify the most appropriate methods of informing parents and guardians of pupils in those grades of human trafficking prevention resources and to implement the identified methods in those schools by January 1, 2020.

PUPIL NUTRITION (EC § 47613.5, 49510-49520, 49564-49564.5, 49557.5): Requires notice to parent or guardian of the free and reduced-priced meals available to pupils in receipt of public assistance. The meal program is defined by EC 49510, et seq. The notice should include the details of the meal program available at the pupil's school site and whether the school district makes the application available online. The notice shall also indicate whether any schools within the school district are eligible for a universal meal program such that breakfast and lunch is provided to all students free of charge. The federal National School Lunch Program and the federal School Breakfast Program ensure that pupils whose parents or guardians have unpaid school meal fees are not shamed, treated differently, or served a meal different from the pupil's choice because of the fact that pupil's parent or guardian has unpaid meal fees.

RIGHT TO REFRAIN FROM HARMFUL USE OF ANIMALS (EC § 37255-32255.6): Pupils may choose to refrain from participating in educational projects involving the harmful or destructive use of animals, based on moral objections, and complete an alternative educational project acceptable to the teacher.

IMMUNIZATION AND COMMUNICABLE DISEASES (EC § 48216, 49403): The District shall follow all laws, rules, and regulations regarding immunizations required for students to enroll. The District shall not admit any student until the student is properly immunized as required by law. Effective January 1, 2016: The California Legislature eliminated the exemption from specified immunization requirements based upon personal beliefs. A pupil who, prior to January 1, 2016, submitted a letter or affidavit on file with the District stating beliefs opposed to immunization shall be allowed enrollment to any National School District school until the pupil enrolls in the next grade span. Grade span means (1) from birth to preschool; (2) Kindergarten and grades 1 to 6, inclusive, including transitional kindergarten; and (3) grades 7 to 12 inclusive. For more information about school immunization requirements and resources, please visit the California Department of Public Health's website at www.shotsforschool.org, or contact your local health department.

MEDICATION (EC § 49423): Any student who must take prescribed medication at school and who desires assistance of school personnel must submit a written statement of instructions from the physician or physician assistant and a parental request for assistance in administering the medications. Any student may carry and self-administer prescription auto-injectable epinephrine only if the student submits a written statement of instructions from the physician or physician assistant and written parental consent authorizing the self-administration of medication, providing a release for the school nurse or other personnel to consult with the child's health care provider as questions arise, and releasing the district and personnel from civil liability if the child suffers any adverse reaction as a result of the self-administration of medication.

CONTINUING MEDICATION REGIMEN (EC § 49480): The parent or legal guardian of any public school pupil on a continuing medication regimen for a non-episodic condition shall inform the school nurse or other designated certificated school employee of the medication being taken, the current dosage, and the name of the supervising physician. With the written consent of the parent or legal guardian of the pupil, the school nurse may communicate with the physician and may counsel with the school personnel regarding the possible effects of the drug on the child's physical, intellectual, and social behavior, as well as possible behavioral signs and symptoms of adverse side effects, omission, or overdose.

PUPILS WITH TEMPORARY DISABILITIES; INDIVIDUAL INSTRUCTION (EC § 48206.3, 48207, 48208): Requires districts to notify parents of availability of individualized instruction for students with temporary disabilities. The parent or guardian of a pupil hospitalized or with a temporary disability shall notify the school district where the pupil is receiving care and that individual instruction program is desired.

DISABLED PUPILS-SECTION 504 OF THE REHABILITATION ACT OF 1973: The district must annually notify handicapped pupils and their parents of the district's non-discriminatory policy and duty under Section 504 of the Rehabilitation Act. The notification should include: name and contact information of person designated by the district for implementing Section 504, screening and evaluation procedures used by the district when there is reason to believe a student has a disability under Section 504, the right to a written accommodation plan if the student qualifies for services under Section 504, the right to be educated with nondisabled students to the maximum extent appropriate based on the student's needs and notice of the parent's legal procedural safeguards.

SPECIAL EDUCATION; CHILD FIND SYSTEM (IDEA; EC § 56301): The District must inform parents of federal law requirements that a free and appropriate public education (FAPE) in the least restrictive environment be offered to qualified pupils with disabilities ages 3 through 21 years. Any parent suspecting a child has exceptional needs due to a disability may request an assessment for eligibility for special education services through the school principal. Policy and procedures must include written notification to all parents of their rights pursuant to EC § 56300.

SPECIAL EDUCATION; COMPLAINTS (EC § 56500.2): State regulations require the district to establish procedures to deal with complaints regarding special education. If you believe that the district is in violation of federal or state law governing the identification or placement of special education students, or similar issues, you may file a written complaint with the district. State regulations require the district forward your complaint to the California Department of Education. Procedures are available from your building principal.

SPECIAL EDUCATION; DUE PROCESS HEARINGS (EC § 56502): Requires the State Superintendent to develop a model form to assist parents and guardians in filing requests for due process. Forms are available at the district office for parents that wish to initiate due process hearings relating to special education rights.

SPECIAL EDUCATION; INSPECTION OF SCHOOL RECORDS (EC § 56043(n)): Specifies the rights of parents with children with exceptional needs to examine and receive copies of records within five business days after a request is made, and before any IEP meeting, hearing or resolution session regarding their child.

PHYSICAL EXAMINATION; PARENT REFUSAL TO CONSENT (EC § 49451): A child may be exempt from physical examination whenever the parents file, annually, a written statement with the school principal stating that they will not consent to routine physical examination of their child. Whenever there is good reason to believe the child is suffering from a recognized contagious disease, the child will be excluded from school attendance. School districts must notify parents or guardians of the specific or approximate dates during the school year when any non-emergency, invasive physical examination or screening is scheduled that 1) is required as a condition of attendance; 2) administered by the school; and 3) is not necessary to protect the immediate health and safety of the pupil or other pupils. The notification must include an opportunity for parents to opt pupils out of participation in the examination or screening. (20 U.S.C. § 1232(h).)

CHILD HEALTH AND DISABILITIES PREVENTION PROGRAM (HSC § 124085, 124105): Requires parents of kindergarten and first grade pupils of requirement of physical examination for first grade enrollment and availability of free health screening through local health department. Requires up to five days of exclusion for failure to comply or sign a waiver.

COMPREHENSIVE SCHOOL SAFETY PLAN (EC § 32286, 32288): Each school is required to report on the status of its school safety plan, including a description of its key elements, in the annual school accountability report card. The planning committee is required to hold a public meeting to allow members of the public the opportunity to express an opinion about the school plan. The planning committee will notify in writing specified persons and entities. The District will notify State Department of Education by October 15th of schools that are not in compliance with safety plans.

SCHOOL BUS AND PASSENGER SAFETY (EC § 39831.5): Requires bus safety regulations to be provided to all new students and students not previously transported by school bus. The bus safety regulations shall include: a list of school bus stops near each pupil's home, general rules of conduct at school bus loading zones, red light crossing instructions, school bus danger zone, and walking to and from school bus stops.

WILLIAMS COMPLAINT POLICY AND PROCEDURES (EC § 35186): A uniform complaint process is available to help identify and resolve deficiencies related to instructional materials, emergency or urgent facilities conditions that pose a threat to the health and safety of pupils or staff, teacher vacancy or misassignment. Notice of the complaint process and the location at which to obtain a complaint form is posted in classrooms.

NOTICE OF ALTERNATIVE SCHOOLS (EC § 58501): The following notice shall be sent to all parents and guardians as required by Section 48980: California State law authorizes all school districts to provide for alternative schools. The Education Code defines alternative school as a school or separate class group within a school, which is operated in a manner designed to:

- a. Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility, and joy.
- b. Recognize that the best learning takes place when the student learns because of his desire to learn.
- c. Maintain a learning situation maximizing student self-motivation and encouraging the student in his own time to follow his own interests. These interests may result in whole or in part from a presentation by his teachers of choices of learning projects.
- d. Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.
- e. Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, pupil, or teacher is interested in further information concerning alternative schools, the County Superintendent of Schools, the administrative office of this district, and the principal's office in each attendance unit have copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the district to establish alternative school programs in each district. A copy of the notice shall also be posted in at least two places normally visible to pupils, teachers, and visiting parents in each attendance unit for the entire month of March in each year.

Such an act is punishable by a fine not exceeding two thousand five hundred dollars (\$2,500), or imprisonment in the county jail not exceeding one year, or in the state prison, or by both that fine and imprisonment. Additionally, pursuant to Education Code section 51512, the use by any person, including a student, of any electronic listening or recording device in any classroom without prior consent of the teacher and the principal is prohibited. Any person, other than the student, willfully in violation shall be guilty of a misdemeanor. Any pupil in violation is subject to the school district's disciplinary procedures.

ELECTRONIC PRODUCTS OR SERVICES THAT DISSEMINATE ADVERTISING (EC 35128.5): If a district enters into a contract for electronic products or services that requires the dissemination of advertising to students, the district must provide written notice to the parents or guardians of the students that the advertising will be used in the classroom or other learning centers.

Whether including this notice in the annual parent notification is mandatory or optional depends on which combination of methods of notification the school decides to use to inform parents or guardian.

STUDENT ONLINE PERSONAL INFORMATION PROTECTION ACT (SOPIPA) SP1177: Effective January 1, 2016, the law prohibits operators of an Internet Web site, online service, online application, or mobile application from knowingly engaging in targeted advertising to students or their parents or legal guardians, using covered information to amass a profile about a K–12 student, selling a student’s information, or disclosing covered information, as provided. The bill requires an operator to implement and maintain reasonable security procedures and practices appropriate to the nature of the covered information, to protect the information from unauthorized access, destruction, use, modification, or disclosure, and to delete a student’s covered information if the school or district requests deletion of data under the control of the school or district.

The policy must be age appropriate and, in a manner, sensitive to the needs of young people. The policy must also address any training on suicide awareness and prevention to be provided to teachers of students in all grades served by the education agency.

INFORMATION ABOUT COMPLETION OF APPLICATIONS FOR STUDENT FINANCIAL AID-EC 51225.8

Commencing with the 2020-21 school year, the governing board/body of school districts and charter schools must ensure that each student, at least once before the pupil enters grade 12, receives information on how to properly complete and submit either the FAFSA or California Dream Act application. NATIONAL SCHOOL DISTRICT

COVID-19 INFORMATION SHEET

COVID-19, also known as the novel coronavirus, is a respiratory illness that is spread mainly from person to person, or via surfaces or objects. Person to person spread from or to children and adults is thought to occur mainly via respiratory droplets produced when an infected person coughs, sneezes, or talks. Reported symptoms of the illness include fever, cough, shortness of breath, chills, muscle pain, new loss of taste or smell, vomiting or diarrhea, and or sore throat. It is important to note that people who are infected but do not have symptoms play a role in the spread of COVID-19.

Recognizing that those infected with COVID-19 may have mild to severe symptoms, it is important for the National School District community to take precautions to mitigate the spread of COVID-19. The best community defense against the virus is washing hands frequently, avoiding touching the face, and avoiding being around sick people and physical distancing.

Parents and guardians should adhere to the following recommendations to protect the health of their student and others in the community:

Keep your student home if they are sick

If your student has a fever, cough, shortness of breath, chills, muscle pain, headache, sore throat, or loss of taste or smell, they should self-isolate and seek medical advice to determine if they should be tested for COVID-19. Your student should stay home for at least 10 days from when the symptoms first appeared and at least 3 days after the fever and respiratory symptoms have improved.

Additionally, a student who was in close contact with someone diagnosed with or suspected to have COVID-19 is to home quarantine for 14 days from the date of the exposure. Close contact is defined as being within 6 feet for more than 15 minutes with someone who has tested positive of COVID-19 or is suspected to have COVID-19.

Requirement for students to wear face covering to school

The use of a cloth face covering by students in the school setting during the COVID-19 pandemic can help reduce the transmission of the virus. Their primary role is to reduce the release of infectious particles in the air when someone speaks, coughs, or sneezes, including those who have COVID-19 but feel well. The face covering should be a material that covers the nose and mouth secured to the head and ties or traps or wrapped about the lower face. The covering may be factory-made, sewn by hand or can be improvised from household items.

All students attending National School District **must** wear masks on campus, particularly in indoor environments, on school buses, and areas where physical distancing alone is not sufficient to prevent disease transmission. Face coverings are not required to be worn by children under two (2) years of age. Parents and guardians are encouraged to send their students to school with a cloth face covering to wear.

The face covering should be washed frequently, ideally after each use, or at least daily. Face coverings that no longer cover the nose or mouth, have stretched out or have damaged straps, or have holes in the fabric should be discarded. Students who do not have face coverings may be provided with them at no cost.

Establish plan if your student must be picked up from school

In the event your student begins to display symptoms of COVID-19 while at school, they may need to be placed in an adult-supervised isolation room until they are picked up by an authorized adult. Please ensure that the emergency contacts for your student are updated with the appropriate individuals permitted to pick up your student if they are sick.

Daily Symptom Check

Parents and guardians should ask themselves the following questions and perform a check of symptoms (based on current [CDC symptoms](#)) daily before bringing their student to school:

- Does your student have any of the following symptoms?
 - Cough
 - Shortness of breath or difficulty breathing
 - A fever of 100 or higher (per local public health guidance) or a sense of having a fever
 - Sore throat
 - Chills
 - New loss of taste or smell
 - Muscle or body aches
 - Nausea/vomiting/diarrhea
 - Congestion/running nose not related to seasonal allergies
 - Unusual fatigue
- Does anyone in your household have any of the above symptoms?
- Has your student been in close contact with anyone suspected of having or diagnosed with a confirmed case of COVID-19?
- Has your student had any medication to reduce a fever before coming to school?

If the answers to any of the above questions is “yes,” they cannot attend in-person classes and the school should be notified. Please note that a representative from your student’s school will likely perform a similar symptom check before allowing your student to attend class.

If you have questions regarding COVID-19, its symptoms, or how to treat the illness, please contact your child’s school.

Attendance at the National School District...matters!

FOR THE 2020-2021 SCHOOL YEAR DAILY STUDENT ATTENDANCE IS REQUIRED (VIRTUALLY OR IN PERSON). HOWEVER, DUE TO THE CURRENT HEALTH CONCERNS, PLEASE DO NOT SEND YOUR STUDENT TO IN PERSON SCHOOL IF THEY PRESENT SYMPTOMS OF ILLNESS.

Back to School – How to Verify an Absence

When returning to school (virtually or in person), a satisfactory explanation verifying the reason for the absence is required. This verification must be one of the following within five (5) school days of the absence:

- Written note, fax, email, or voice message from parent/guardian or parent representative.
- Conversation by telephone between the school and the student’s parent/guardian. The employee shall record the absence appropriately.
- Visit by school personnel to the student's home.
- Physician’s verification.

When a student has had 14 absences in the school year for illness verified by methods listed in #1-#3 above, any further absence for illness must be verified by a physician.

Excused Absences

A student’s absence shall be excused for the following reasons in accordance to Ed. Code 48205:

- Personal illness.
- Quarantine under the direction of a county or city health officer.
- Medical, dental, optometric, or chiropractic appointment.

Parents/guardians of students shall be encouraged to schedule medical appointments during non-school hours. Many parents are unaware that going “out of town” with their children during school is an unexcused absence, as are “family emergencies.” In both cases, planning ahead can avoid unexcused absences and possible legal problems.

Tardiness

Students should be in class for in person instruction or virtually logged on and ready at the commencement of the school day. After the second bell rings, your child is considered tardy if not in their seat or virtually logged on. For in-person instruction, students must report to the school office/screening location to obtain a tardy slip and be screened. For students in virtual instruction, students not logged on at time directed by teacher, must report tardy to the school office via email or phone call, the office will record the tardy. Arriving late to school will be considered unexcused. Oversleeping, car/traffic problems, etc. are all unexcused. A tardy is excusable by a school official under the following circumstances:

- Student has a court appointment.
- Illness of the student.
- Student has a doctor/dentist appointment.

*A note or phone call from a parent or a professional note from a doctor/dentist will be required to verify the above.

Three (3) tardies of more than 30 minutes count as one unexcused absence. As a parent, it is your responsibility to ensure your child arrives punctually to school daily, so they may take full advantage of the educational opportunities available to them. If your child is attending any of our schools on an inter-district permit or intra-district permit, one of the requirements is to attend school regularly and on time. If your child is attending NSD full distance learning, one of the requirements is to attend school regularly and on time.

PLEASE REPORT YOUR CHILD’S ABSENCE TO THE SCHOOL WITHIN FIVE (5) DAYS OF THE ABSENCE. FAILURE TO DO SO WILL RESULT IN AN UNEXCUSED ABSENCE.

Students Miss Out if They're Not in School

Full-time school attendance is required by law in California and parents are charged with the responsibility of ensuring their child's attendance at school. Parents must advise the school if a student is not in school and give a specific reason for the absence. If all efforts fail and the attendance problem cannot be resolved by school staff, a referral will be made to the School Attendance Review Board.

If students are missing school, they're missing out on building lasting friendships, acquiring skills and attitudes needed to become valued employees and knowledgeable citizens. If students have a severe attendance problem the School Attendance Review Board (SARB) can help.

What is SARB? SARB is the School Attendance Review Board. It is designed to find solutions to student's severe school attendance problems. The Board is made up of representatives from the School District, Police Department, Probation Department, Child Protective Services, Department of Social Services and other community-based organizations as appropriate. SARB seeks to understand why students are experiencing attendance and/or behavior problems and makes every effort to correct the problem.

How can SARB Help? SARB provides the chance for parents, students, and community agencies to take one more look at the problem together. This approach can result in new viewpoints or solutions which may have been overlooked before, including the following:

- Changing student's program, teacher or school.
- Facilitating a new understanding with the school.
- Changing attitudes of the students or family.
- Developing a contract approach set up with the student and parent.
- Locating resource agencies to help the family.
- Arranging for access to parent education.
- Directing the student and/or family to counseling.

Who is referred to SARB? Students whose irregular school attendance or excessive tardies have not been helped by assistance offered at the school or at home. Before a student is referred to SARB, many efforts are made by the school to resolve the problem. Early identification of serious attendance problems result in a higher success rate. Students are referred to SARB by the school principal and after a home visit by the SARB office.

Is SARB effective: Yes! SARB staff are knowledgeable and skillfully trained professionals devoted to students. They promote good school attendance and motivate student to follow the plan specifically designed to improve school attendance. SARB supports the early identification of serious attendance problems, which encourages a higher success rate. Our statistics show a significant increase in the attendance rate of students after they have been referred to SARB.

Research findings related to success in school: Students who miss a lesson lose an opportunity to learn. Too many missed opportunities can result in failure, dropping out of school, or both. Children who believe in the value of hard work and responsibility and who attach importance to education are likely to have higher academic achievement and fewer disciplinary problems than those who do not have these ideals. Parents can improve their children's chances for success by emphasizing the importance of education, hard work, and responsibility and by encouraging their children's friendships with their peers who have similar values.

What if... After a student has met with the Board and agreement on a process for resolving the student's attendance problems has been reached, failure of the student or parent to cooperate and follow through can lead to the student being referred to the Juvenile Probation Department and/or parents being referred to the City Attorney for possible legal action, or parents receiving a citation from the Police Department.

Where can I find out more? Additional information on the School Attendance Review Board is available from the principal at your school or by calling the SARB Chairperson at 619-336-7748.

This program is designed to teach students about the natural changes that take place as students grow and mature. In grades 5 and 6, the program also covers such topics as HIV and human reproduction.

Parents will have an opportunity to preview the materials and videos that will be used in these lessons. Preview sessions will be scheduled by the school sites. Parents will be notified regarding the preview sessions.

Due to legislative requirements, every student will participate in the A.G.E Program unless a written request from a parent to exclude him/her from the curriculum is received. This letter must be received by the classroom teacher before the first day of classroom instruction in this program. The knowledge acquired from the A.G.E. program will help all children develop the confidence and self-respect necessary to choose a healthy lifestyle.

School Volunteers

Thank you for your interest in sharing your valuable time with National School District. We recognize that volunteer assistance in schools can enrich the education program, increase supervision of students, and contribute to school safety while strengthening the school's relationship with the community (BP 1240).

Volunteer applications must be filled out each school year. Please turn in the completed packet to your school of choice. Volunteer packets are available at the schools and online at www.nsd.us.

Documents Needed (AR1240; EC49406):

1. Volunteer Application
2. Volunteer Code of Conduct
3. Valid Driver's License or Picture ID
4. Copy of negative Tuberculosis Test (TB) results within the past four years

Please Note: Volunteers are screened through the Department of Justice's Megan's Law website (AR1240; cf. 3515.5)

Complete Campus Security System (CCSS)

All National School District schools are closed campuses and have now implemented the Complete Campus Security Solutions (CCSS). CCSS is a web-based software application that has been developed with the purpose of aiding education facilities in tracking their visitors, students and faculty. It will allow schools and facilities to produce visitor badges and monitor volunteer hours. The overall goal is to better control access to all National School District (NSD) schools, thus providing enhanced safety and protection for our students and staff.

These visitor check-in/out procedures will ensure that all persons who are not assigned to the site have a visitor's badge or National School District photo ID card visible to enter the school site. Anyone who does not have a site visitor badge with the current date displayed or an NSD ID badge is escorted to the office or immediately reported to administration. School site entry is defined as proceeding past the check-in desk (front office). For drop-off and pick-up times, parents and guardians do not have to sign in if they do not "enter" the building. Visitors, including parents and guardians, are not allowed to enter the building without checking in. This is applicable only during school hours.

During check-in, visitors must provide valid identification. Valid identification includes valid driver's license from any state, an official state photo identification card from any state, military identification card, government issued passport, Mexican consular card, or Senti pass. This is used as visitors log into the computerized system. When visitors leave the school site, they must log out of the CCSS system. If you have questions concerning CCSS, contact your school site administrator.

Help Keep Your School Safe

Simple Answers to Safety Questions....

Could a stranger or a non-custodial parent remove my child from school? No one may remove your child from school without your permission, with the exception of law enforcement or child protection officers. You must list the people who can pick up your child on the emergency card. If you have a restraining order denying anyone access to your children, please give the office a copy.

What will happen if you can't get in touch with me in case of an emergency with my child? We will first try to contact your friends and relatives listed on the emergency card. That is why those numbers are so important to us. If we can't contact them, our emergency cards allow parents to give us permission to obtain emergency medical care for children. In that case, we will call paramedics to transport your child for care.

What should I do if my child is bothered by someone on the way home from school? Immediately contact the police department. As soon as you are able, contact the school office so that we can use that information to warn students and parents of the danger.

What should I do if my child is hurt or threatened by a student at school? Please contact your child's teacher or the school principal immediately to make an appointment to talk about this problem. All students must feel safe at school and we do not allow children to hurt or threaten each other. **Bullying:** No student will be allowed to engage in an act of bullying, including, but not limited to, bullying committed by means of an electronic act.

Why do schools require mandatory uniforms? We believe that students concentrate more on studies when clothing is not an important issue. Some parents still have questions about what children can wear. If you do, please call the office and request a school uniform list. There may be limited financial assistance for families who need help purchasing uniforms. Call your school office for more information.

Why are police officers on our school campuses? National City Police Department officers work in our schools in the areas of classroom instruction and enforcement. The instruction is for students in grades 4, 5, and 6 and targets gang, drug, alcohol, and tobacco education. The enforcement activities include investigating crimes, helping enforce school attendance laws, and meeting with students, parents and staff.

What can my child bring to school? The only things students should bring to school are school supplies. Toys, make-up, radios, candy and other items do not belong at school.

What is National School District's Discipline Policy? The Discipline Policy states that the school staff will not allow any weapons or dangerous objects, violent acts, repeated fighting, drugs, alcohol, tobacco, or threats against staff or students.

The law says children cannot bring... As you know students may not bring weapons, drugs, alcohol or tobacco. Even toy weapons such as plastic guns and knives are forbidden. Did you also know that it is against the law for your child to bring cough medicine, Tylenol, or other medicine from home? If your child needs medicine during the day you must bring it to the office with a doctor's note, and it will be administered during the day.

What happens if my child brings?

A small knife his grandpa gave him. Your child will be suspended and could be expelled from school. If the knife blade is larger than 3 inches, a police report will be filed, and your child must be expelled.

A toy gun. Remember, a toy gun may look like a real gun. The Administrative Board will investigate how your child used the toy gun. If he/she threatened others, expulsion may be recommended to the School Board.

A cigarette and lighter she found on the way to school. The lighter may be considered a dangerous object, and tobacco products are forbidden at all times. Both these items fall under the National School District Discipline Policy.

Who decides on the punishment for a child who violates these rules? The final decision on all punishments under the Discipline Policy will be made by the School Board. An Administrative Panel, made up of school principals and district administrators, will investigate the case and meet with school staff, the child and his/her parents or guardians. The Panel will make a discipline recommendation to the School Board based on the facts of each case.

How Parents Can Help - Remind your child to immediately tell the teacher or principal if he/she accidentally brings a forbidden item to school. Also remind your child not to hold, or help to hide, any items for other students.

Talk with your children about strangers. Remind them to tell you or the teacher about anyone who bothers them on the way to or from school.

Please keep your emergency telephone numbers current. Report new numbers to the office as soon as possible.

Don't send small kitchen knives to cut food items with your child's lunch or snack. These knives are also prohibited under the National School District Discipline Policy.

Help your child keep unwanted items at home by checking his/her backpack frequently, especially after weekend trips or visits with friends and family.

Keeping Our School Safe is Everyone's Job

National School District Maintenance and Operations Department

On October 22, 1986, the President signed into law the Asbestos Emergency Response Act (AHERA), to CFR, which required all employees, building occupants or their legal guardians, and outside vendors be notified of the results of our compliance with AHERA. This includes building inspections, response activities, and post-response activities, including periodic surveillance and re-inspection activities that are planned or are in progress.

The National School District continues to take an aggressive step toward the protection of human health in its compliance with AHERA. Since the management plan became effective on July 7, 1989, all friable (loose particles) asbestos has been removed from all school facilities. All periodic inspections (every six months) have been conducted on non-friable asbestos. The most recent three-year re-inspection was conducted in April 2019. There has been no significant change to the condition of the non-friable asbestos that was originally stated in the management plan.

All documentation has been filed in the management plan that is on file at each school site and the District Office that is available for public viewing.

Further information may be made available to you by contacting the Director of Maintenance and Operations, at the National School District Service Center by calling 336-7770.

Dear Parents:

State law requires that our school district test students on the State's California Assessment of Student Performance and Progress testing program (CAASPP). The program includes the Smarter Balanced Assessment (SBAC) in English language arts and math and is administered to all students in grades 3-6 including special education students. The California Science Test (CAST) is administered to all students in grade 5. The California Alternative Assessment (CAA) may be used in our Special Day classrooms for math and English language arts and in grade 5 for science. English Learners who have been enrolled less than 12 months in a United States school are not required to take the Smarter Balanced Assessment in English language arts but are required to take the Smarter Balanced Assessment in math. In addition to these tests, a physical education test is given to 5th grade students and the English Language Proficiency Assessments for California (ELPAC) is administered to English Learners in grades TK-6.

Here are some questions you may have regarding the State's testing program.

Question: Who takes the SBAC assessments?

Answer: State law requires that all students in grades three through six take the SBAC test in ELA and Math.

Question: What if my child doesn't speak English or speaks very little English?

Answer: The law requires that all students take the SBAC test and grade five students take the Science test in English. The SBAC tests measure students' knowledge and problem-solving skills in reading, writing, and math. The Science test measures fifth grade students' knowledge in science. Universal and designated supports, embedded within the test and non-embedded, will be provided for English Learners as needed. Parents who do not wish their child to take these tests may request a waiver. This may be done by having a conference with their child's principal.

Question: What if my child is a newcomer to California schools from outside the United States?

Answer: Non English-speaking students who have been enrolled less than 12 months in a United States public school will take the SBAC test in math in English, unless their parents have signed a waiver. The SBAC tests measure students' knowledge in reading, writing, and math. They are not required to take the test in English language arts.

Question: What if my child is in a Special Education Program?

Answer: A student's Individual Educational Program (IEP) can exempt him/her from taking the CAASPP assessments. Students may be eligible to take the CAA in math and/or English language arts and/or science (students in grade 5). The testing environment may be modified to adapt to a student's learning needs if addressed in a student's IEP.

Question: What if I do not agree with the tests being administered to my children?

Answer: By law, any parent has the right to excuse their child from the State testing program. This request must be submitted in writing to your child's principal.

Should you have any questions regarding the testing program or wish additional information before your child takes the test, please call your school principal.

Sincerely,

Leighangela Brady, Ed.D.
District Superintendent

Creating Successful Learners... Now

Please Note: This letter is only for students newly enrolling in a California School.

Dear Parent/Guardian:

During the registration process for new students, a home language survey is completed if it has not been completed at a previous California school or district. In California public schools, all students entering school for the first time will be assessed with the Initial English Language Proficiency Assessments for California, or “Initial ELPAC” if there is a home language other than English listed on the home language survey.

The Initial ELPAC is the test used to determine if a student is an English learner or is fluent in English. This required test will help identify students who need help learning English. This is important so they can get the support they need to do well in all school subjects.

You are an important part of your child’s education. To help your child get ready for the test, you can:

- Read to your child or have them read to you on a regular basis.
- Use pictures and ask your child to tell you what they see, or what is happening in each picture.
- Provide your child with opportunities to use language outside of school.
- Talk with your child’s teacher about your child’s listening, speaking, reading, and writing skills to help support their progress.

To learn more about the ELPAC, go to the California Department of Education Parent Guides to Understanding Web page at <https://www.cde.ca.gov/ta/tg/ca/parentguidetounderstand.asp>.

You also can look at sample test questions on the practice tests, which can be found on the ELPAC Web site at <https://www.elpac.org/resources/practicetests/>.

If you have any questions about your child taking the ELPAC, please contact the principal of your child’s school.

Sincerely,

Sharmila Kraft, Ed.D.
Assistant Superintendent, Educational Services

Dear Parent/Guardian:

Identifying students who need help learning English is important so they can get the support they need to do well in English language arts/literacy, mathematics, science, and other subject areas in school. The Summative English Language Proficiency Assessments for California, or "Summative ELPAC," is the test used to measure how well students understand English when it is not the language they speak at home. Information from the ELPAC tells your child's teacher about the areas in which your child needs extra support.

The Summative ELPAC administrative window will begin February 2021.

Students in kindergarten through grade twelve who are classified as English learners will take the Summative ELPAC every year until they are reclassified as proficient in English. Students are tested on their skills in listening, speaking, reading, and writing. Your child's voice is being recorded as part of the Speaking test. A small percentage of student responses will be used to validate the accuracy of scoring and will not be used for identification. All recorded responses will be destroyed after the scores are validated.

You are an important part of your child's education. To help your child get ready for the test, you can:

- Read to your child or have them read to you on a regular basis.
- Use pictures and ask your child to tell you what they see, or what is happening in each picture.
- Provide your child with opportunities to use language outside of school.
- Talk with your child's teacher about your child's listening, speaking, reading and writing skills to help support their progress.

To learn more about the ELPAC, go to the California Department of Education Parent Guides to Understanding Web page at <https://www.cde.ca.gov/ta/tg/ca/parentguidetounderstand.asp>.

You also can look at sample test questions on the practice tests, which can be found on the ELPAC Web site at <https://www.elpac.org/resources/practicetests/>.

If you have any questions about your child taking the ELPAC, please contact the principal of your child's school.

Positive Behavior Interventions and Supports (PBIS)

Positive Behavior Interventions and Supports (PBIS) is a preventative and positive multi-tiered system of support that is embraced by National School District to foster a safe and positive learning environment.

PBIS includes four main components:

1. Clearly defining and teaching behavioral expectations
2. Consistently acknowledging and rewarding expected behavior
3. Providing clear and consistent interventions when students break expectations
4. Using behavioral data to assess progress and address needs

SCHOOL-WIDE
POSITIVE BEHAVIOR
SUPPORT

Primary Prevention:
School-/Classroom-
Wide Systems for
All Students,
Staff, & Settings

2020-2021

DEFINING AND TEACHING BEHAVIORAL EXPECTATIONS

There are four school-wide behavioral expectations:

- Be Safe**
- Be Respectful**
- Be Responsible**
- Be Kind**

Be Safe	Be Respectful	Be Responsible	Be Kind
WALK on the blacktop	Stop, look, and listen when spoken to by adults	Take bathroom and drink breaks during recess	Use kind words with peers when you disagree
Keep hands and feet to yourself	Take turns	Stop playing and WALK to your line when the bell rings	Allow all students to join in games

These expectations are applied to different school environments (i.e., hallway, playground, cafeteria) and scenarios (i.e., problem solving), and taught to students during in-class lessons and behavioral assemblies.

ACKNOWLEDGING & REWARDING EXPECTED BEHAVIOR

Wise Owl Ways
am...
Safe
Respectful
Responsible
Kind

OWLS

Name _____
Room number _____
Earned for _____

At each school, students are positively reinforced for following the behavioral expectations in a variety of ways. Teachers and staff members reward students with caught being good slips (i.e., Dolphin Tickets, Tiger Tickets) when students are **safe, respectful, responsible, and kind**. These slips are then entered into drawings in which students can earn recognition and rewards. Additionally, positive student behavior is shaped with acknowledgment, praise, and classroom incentives.

PROVIDING CLEAR & CONSISTENT INTERVENTIONS

Students who do not follow expectations receive interventions and consequences to improve their behavior. Teachers correct minor behaviors by referring back to the expectations and having students practice the desired behavior. For students who require additional support, low level interventions are provided (i.e., reflection forms, restorative questions).

For minor behaviors that require additional intervention and parent communication a Tier I Intervention Form is issued. If a student receives 5 Tier I Intervention Forms for the same behavior or exhibits a more serious/dangerous behavior, a Tier II Referral is issued. This includes an office discipline referral to an administrator.

USING BEHAVIORAL DATA

Schools collect data every year in order to improve outcomes and interventions (i.e., attendance, reading scores). PBIS data is analyzed regularly by school staff and the PBIS Committee in order to determine what behaviors need to be addressed, where those behaviors occur, and when the behaviors take place. With this data, school sites can improve supervision, facilitate school wide re-teaching strategies, and address the specific needs of schools as they arise.

PARENTS CAN HELP BY:

5. Report suspicious activity around the school to the principal/police.

GENERAL SCHOOL SAFETY:

2. Local and District-wide communication systems are in place between critical school personnel, Police Department, and Fire Department.
3. Communication systems between parents and school.
4. Emergency procedures for the following events: Fire, Evacuation, Shelter-in-Place, and Lockdown.
