NALEO Report

Trustees Lizarraga, Avalos, and Betancourt-Castañeda reported on the National Association of Latino Elected and Appointed Officials (NALEO) 40th Annual Conference they attended.

Securing our Critical Infrastructures

What are we doing in our IT Department to secure our private information?

- How to make sure our information, students and their families are protected?
- Is there a need of professional development for phishing emails and what to do? How to recognize them if we have one, any suspicious attachment?
- Hackers are looking for vulnerable homes and awareness of that is responsibilities of the providers.
- Any need of a campaign, create more awareness among all the staff, teachers, about security? What to expect if we are being hacked?

FACT : 77% of the reported attacks in 2022 were caused by phishing scams, software vulnerabilities and poor password security.
