2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Dear Palmer Way Families,

On behalf of Palmer Way Staff, I would like to extend a warm WELCOME to our new families and a very special WELCOME BACK to those of you who are returning. I hope that your summer was filled with fun and relaxation and that you made a lot of wonderful memories with family and friends.

Here at Palmer Way we believe that Community is the genuine care and compassion shared between staff, students, and parents. Now more than ever, we are working with our PTA to make Palmer Way a place where staff and families come together to ensure that the children entrusted to our care grow to be exceptionally prepared learners, as well as innovative and compassionate world citizens. I am excited and certain we will have an amazing year!

I look forward to a productive partnership with you to ensure our students can achieve their highest potential. Our teachers understand that part of our students' success relies heavily on the support offered both at school and at home, and a strong partnership with you, will make a difference in your child's education. I have already met with Palmer Way PTA and it will be our focus to provide more opportunities for family members to safely come onto campus to be an active part of their child's education. I am certain that our common responsibility for our students' success will provide fruitful outcomes as the year progresses, no matter the challenges.

We will be reviewing our safety protocols as we move forward, but completing the Parent Volunteer packet will be a great start. You can pick up a volunteer packet at the school office or you can download it from the NSD Website.

I would also like to remind everyone that we will be following the National School District Uniform Policy that can be found on page 24 of the National School District 2022-2023 Annual Parent Notifications Handbook. So please remember to come to school in uniform every day.

Thank you for your continued support as we work together as a school community, inspiring our students to strive for and achieve their goals.

Sincerely,

Alfonso Denegri

Principal

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Palmer Way's main campus was built in 1967. Since our opening the following major renovations or improvements have been addressed:

- 1997 – Relocatables were added to support class size reduction.
- 1998—Relocatables were added to support class size reduction.
- 1999—Relocatables were added to support class size reduction.
- 2000—Modernization consisting of new flooring, ceilings, lights, electrical, insulation, windows, painting, and cabinetry.

Palmer Way currently has 28 regular classrooms and 12 relocatable buildings.

Maintenance and Repair

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. Palmer Way's lower playground is also undergoing a major renovation that should be ready by Spring of 2023.

Cleaning Process and Schedule

We have made a conscientious effort to provide a clean and attractive campus. Students are encouraged to have pride in their school and keep the campus clean. The District Governing Board has adopted cleaning standards for all schools in the district. A summary of these standards is available at the school office or at the district maintenance office. The principal works daily with the custodial staff and the custodial supervisor to develop cleaning schedules to ensure a clean and safe school.

The Facilities Inspection Tool (FIT)

The FIT is used on a yearly basis to identify facility needs and repairs. All items found in need of repair on the FIT are addressed. Items that involve asphalt, roofing, flooring or painting are addressed through the District's deferred maintenance program. All other items are expedited into the National School District work order system and repaired by our maintenance department.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
English Language Arts/Literacy (grades 3-8 and 11)	N/A	40	N/A	33	N/A	47

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Suspensions	1.62	0.78	2.45
Expulsions	0.00	0.00	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Professional Development

The selection of focus areas for on-going professional development is based on a careful analysis of achievement data. The district calendar earmarks full days and early release time for providing site-based professional development for all teachers. Teachers also have opportunities to attend conferences and district-wide professional development throughout the year. During the 2019-20 school year all teachers at Palmer Way will receive approximately 30 hours of professional development in mathematics through the University of California Irvine subject matter project. This professional development will empower our teachers to deliver a cohesive, common core curriculum based on the CCSS. The project includes hands-on, research-based professional development, standards-based curriculum guides and unit plans aligned to the Common Core to assist our teachers in the implementation of our GoMath adoption. The Irvine Math Project team is comprised of classroom practitioners, math content experts, and math education researchers. A focus on professional development around the area of mathematics and ELA was selected in response to the needs highlighted in our CAASPP data. In the area of language arts, all of our teachers will receive in-depth professional development in the California ELA/ELD framework. The ELA/ELD framework professional development has been selected as an area of focus due to our high numbers of English language learners and the need for teachers to be excellent discerners of curriculum and materials needed to deliver robust and rigorous lessons. Both these areas of focus have been delivered through teacher release days, bi-weekly data team meetings, collaboration days and weekly staff meetings, off the clock offerings and during individual teacher planning days. We have four Teachers on Special Assignment (TOSA) that provide workshops in the area of Language Arts and English Language Development. We also have credentialed teachers that provide Engineering is Elementary lessons for students. This provides opportunity for the Language Arts and ELD workshops. With our new English Language Arts adoption, all teachers will receive staff development in the implementation of our newly adopted BENCHMARK materials. To support daily, robust and rigorous reading, our district office has adopted the American Reading Company 100 book libraries. All teachers will receive staff development on the implementation and best practices used for these reading baskets for students. Our counselors have received training on the Sanford Harmony social-emotional curriculum which they will deliver in each classroom. Counselors will deliver this curriculum in all classrooms while teachers support the implementation and lesson delivery. In addition, all teachers have received professional development on how to run restorative circles in their classrooms in order to deliver Tier I positive behavior interventions and supports to all students. of focus for teacher training include effective instructional strategies for implementation of Common Core Standards, best practices for Data Teams collaboration, ELA Benchmark curriculum, curriculum training in writing, language arts and mathematics, as well as specific training to support the needs of English Learners. Teachers of students with special needs and teachers of newcomer students also receive specialized training to assist them in meeting the unique needs of their students. This professional development is provided in various formats, including whole staff group, grade-level teams, and through individual mentoring by the school administrator. The District also assists in the coordination of BTSA Induction Support for year one and two teachers. Teachers who are experiencing difficulty or need improvement have access to the PAR (Peer Assistance Review) Program.

In addition to district level professional development focused around English language arts and math, Palmer Way also has a strong focus on Writing. Many hours of professional development are spent on identifying, studying and implementing Writing Strategies At Palmer Way we believe that the skills most important to develop in young children, is a love of reading and writing. A child with a book or pencil in her hands is a child with a bright future in front of her. Reading and writing may be looked at as fundamental skills within the classroom, but their use remains essential long after one's formal education comes to an end. Living in the digital age has made literacy even more important, as communicating professionally via writing is an important skill in most workplaces. At a time when professionals spend one third of their time reading and writing emails, written communication is more important than ever before for success in academics and beyond. The earlier in life writing skills are developed, the stronger these skills will be in the long run, highlighting the importance of writing in elementary school.
